# Poichecker

## „Points of Interest“ for the free worldmap Openstreetmap

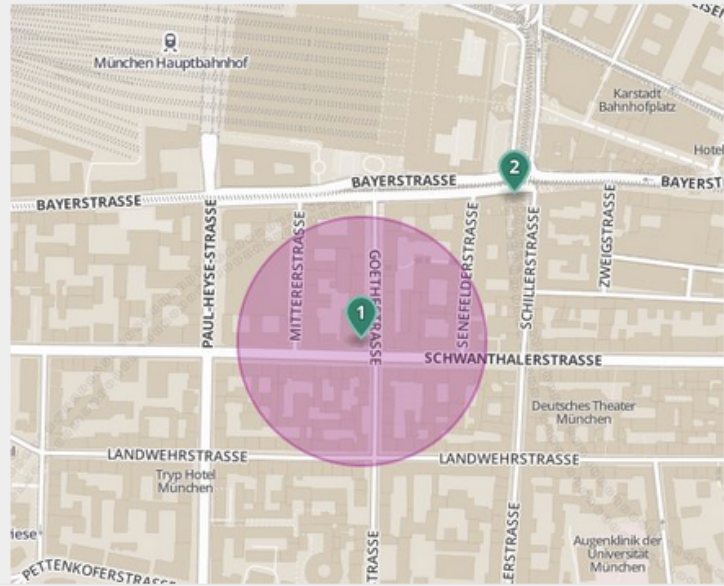

**We need your local knowledge**

We have POIs (places) from two different sources, which need to be merged. Check which of them are actually the same and which are missing. Everyone can help!

[Check POIs now!](#)

### Why POIchecker?

OpenStreetMap is a map of the world, created by people like you and it is free of charge. It does not only contain

The screenshot shows a web browser window with the URL poichecker.dev/en. The page features a navigation bar with 'Poichecker' and 'data sets' links, and a 'Check POIs now!' button. The main heading is 'POIchecker' in a large green font, followed by the subtitle '„Points of Interest“ for the free worldmap Openstreetmap'. Below this is a section titled 'We need your local knowledge' with a paragraph explaining the project's goal: merging POIs from two sources. A green button labeled 'Check POIs now!' is present. The 'Why POIchecker?' section begins with 'OpenStreetMap is a map of the world, created by people like you and it is free of charge. It does not only contain'. To the right, a map of Munich shows a grid of streets including Bayerstrasse, Paul-Heyse-Strasse, Mitterer-Strasse, Goethe-Strasse, Senefelder-Strasse, Schiller-Strasse, and Schwantaler-Strasse. Two green circular markers with numbers 1 and 2 are placed on the map, indicating specific points of interest.

# Where is your home zone?

Thx a lot, your location has been updated.

All POIs are ordered by the distance to this location.

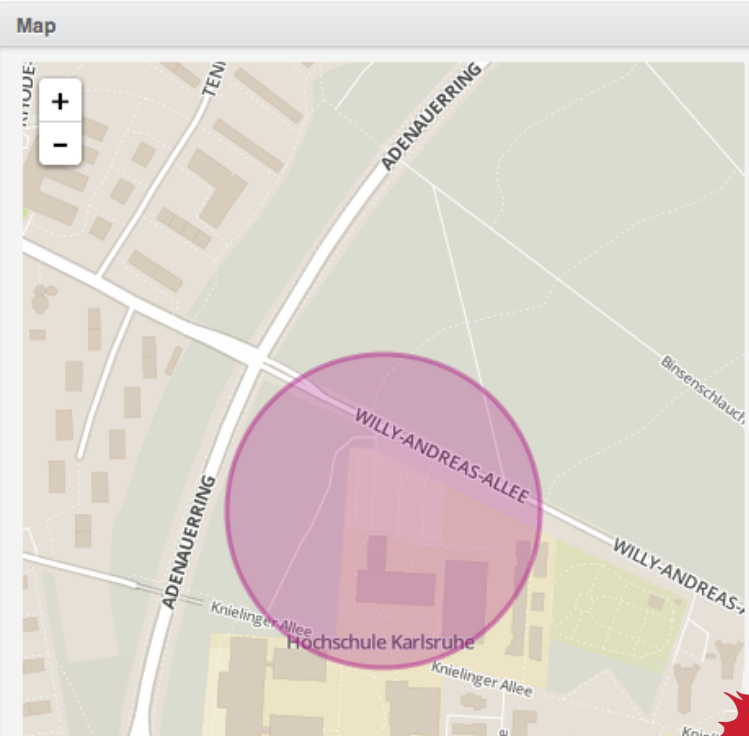

**Determine my location automatically**

**Or at a certain address**

City

*You can provide an exact address too.*

**Map**

The map displays a street grid with a purple circular highlight centered on a building complex. The highlighted area is labeled 'Hochschule Karlsruhe'. Surrounding streets include 'ADENAUERRING', 'WILLY-ANDREAS-ALLEE', and 'Knielinger Allee'. A zoom control with '+' and '-' buttons is visible in the top left corner of the map area.

23699 POIs have to be checked
